DETAILED ACTION

Response to Amendment

This Office is in response to applicant's amendment filed on October 24, 2003. Claims 3, 5, 6, 8 have been cancelled. Claims 1, 4, and 7 have been amended. Claims 1, 2, 4, 7, and 9-11 are pending.

Applicant's election without traverse of the species as shown in Figure 4A in Paper No. 7 is acknowledged.

Claims 2, 4, and 10 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected species, there being no allowable generic or linking claim. Election was made **without** traverse in Paper No. 7.

Claim Objections

Claim 7 is objected to because currently it contains "[[" in line 7 and "]" in line 18, both of which appear to be a typographical errors. In view of this objection, Examiner had interpreted as best can be understood and intended by applicant, with which claim 7 depends from claim 1 elements b, c, and d have been treated on the merits as if they all were deleted from the claim.

Double Patenting

The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686

Art Unit: 3743

F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

Claims 1, 7, and 11 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claim 1, 3, and 10 of U.S. Patent No. 6,081,741 (Hollis) in view of U.S. Patent No. 6,516,216 (Fontenot et al). Claims 1, 3, and 10 of U.S. Patent No. 6,081,741 (Hollis) claims applicant's invention with the exception of a laser device used as the illumination source. It would have been obvious to modify claims 1, 3, and 10 of U.S. Patent No. 6,081,741 and to provide a laser light source as taught in the U.S. Patent No. 6,516,216 (Fontenot et al) for the purpose of producing a sharper and more focused light beam and of enabling a means of more precise locating of the emitter with the detector.

Allowable Subject Matter

Claim 9 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Conclusion

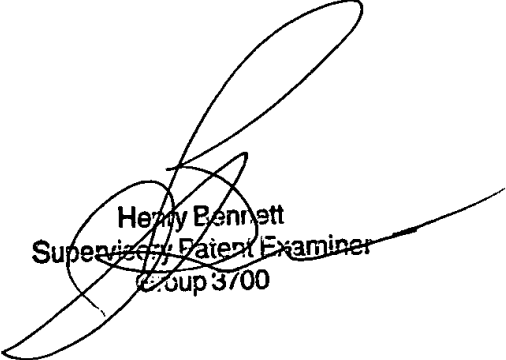

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
